Noland Company Opens HVAC location in Florida

New operation exclusively distributes NuTone Heating and Cooling Products

DAYTON, Ohio, Dec. 2, 2009 — Noland Company, a distributor of plumbing supplies and heating and air conditioning equipment in the Southeast since 1919, has opened a new location in Pinellas Park, Fla., to provide commercial and residential contractors with NuTone Heating and Cooling Products.

Noland is a wholly-owned subsidiary of WinWholesale Inc., one of the nation's largest distributors.

The Pinellas Park location serves contractors in Pinellas, Pasco Hernando, Manatee and Sarasota counties. NuTone, Noland's exclusive brand, has the highest efficiency air conditioner in the industry at 24.5 SEER using IQ Drive Technology, said Rick Brock, Pinellas Park manager.

"The opening in Pinellas Park is an example of how Noland will carefully grow the business in selected markets by giving customers a competitive advantage through superior service and quality products provided by knowledgeable people," said Jim Adcox, Noland chief operating officer.

About Noland Company

Noland Company is a wholly-owned subsidiary of WinWholesale Inc., a privately held, Dayton, Ohio-headquartered company. Noland Company has more than 70 locations throughout the southeastern United States providing plumbing supplies and equipment, and heating and air conditioning systems. In addition to Noland, WinWholesale has more than 450 wholesaling corporations in which WinWholesale is an equity partner. Collectively, WinWholesale refers to itself as "The Win Group of Companies." In the group are companies engaged in business-to-business wholesale distribution of plumbing and water heating equipment and supplies; industrial pipe, valves and fittings (PVF); heating, ventilation, air conditioning and refrigeration equipment; electrical equipment and supplies; industrial and commercial fastening hardware; waterworks and utility supplies; and industrial pumps.
